Industrial Visit in Munich, September 2013

In September 2013, University undergraduate engineering students and others on the MSc in Integrated Product Development recently went on an industrial study tour in Germany led by Philip Farrugia and Arif Rochman. They visited the production lines of the BMW 3 series model in Munich and of the NH90 and Tiger helicopters and Airbus door panels at Eurocopter in Donauwörth. They also visited the Porsche Museum in Stuttgart and Deutches Museum, the world’s largest science and technology museum.
